

Chapter 10 Activity Sheet: The 30-Day Cloud Sprint

 Use this activity sheet to plan and track your 30-day cloud sprint. This will help you build real momentum, align with a job role, and create tangible results week by week.

Step 1: Set Your Sprint Focus

Choose one cloud role to focus on for the next 30 days:

Chosen Role (e.g., DevOps, SRE, Architect): _____

Main Goal (e.g., build 2 projects, prepare for interview): _____

Step 2: Weekly Sprint Planner

Use this format to outline what you'll focus on each week.

Week 1 – Setup + Foundation

Goal:

Tools/Topics:

What Success Looks Like:

Week 2 – First Project

Goal:

Project Title:

Expected Output:

Week 3 – Second Project / Polish

Goal:

What You're Improving or Expanding:

Week 4 – Portfolio + Public Share

Goal:

Where You'll Share:

- ☐ GitHub
- ☐ LinkedIn
- ☐ Blog
- ☐ Others

Post/Publish Date:

Step 3: Daily or Weekly Check-ins

You can check off each task as you complete it.

- ☐ Setup AWS Free Tier
- ☐ Complete lab tasks (5+)
- ☐ Push project to GitHub
- ☐ Write a README.md
- ☐ Share one post on LinkedIn
- ☐ Create/Update your resume
- Practice project walkthrough

Step 4: End-of-Sprint Reflection

Answer these after the 30 days:

What were the biggest things you learned?

What was your proudest output?

What's one thing you'll do differently in your next sprint?

Outcome

By completing this 30-Day Sprint, you'll:

- ✓ Build focused momentum aligned to a cloud role
- ✓ Create 1–2 projects and share them publicly
- ✓ Feel more confident, visible, and job-ready
