

Chapter 8 Activity Sheet: Show It Off, Smartly

 Use this activity sheet to complete the Chapter 8 Quick Win. This exercise will help you share your cloud journey and projects online in a way that's professional, engaging, and authentic, without feeling awkward or salesy.

Step 1: Choose What to Share

Select one of the following (or something similar):

- A project you just published to GitHub
- A milestone in your 30-day sprint
- A concept you finally understood
- A reflection after finishing a cloud lab

Topic I'm sharing:

Step 2: Pick a Platform

Where will you share it?

- ☐ LinkedIn
- ☐ Twitter
- ☐ Facebook
- ☐ Personal Blog
- ☐ GitHub README.md

Optional: Use hashtags like #CloudPortfolio, #AWS, #LearningInPublic

Step 3: Write a Share-Worthy Post

Use the simple format below to draft your post:

1. What you did or learned
2. How you did it (tools/services used)
3. A screenshot, diagram, or link (if possible)
4. Why it matters to you or others
5. Invite others to connect or give feedback

Draft your post here:

Step 4: Prep a Visual (Optional but Powerful)

Attach or embed one of the following with your post:

- ✓ A screenshot from AWS Console
- ✓ Your architecture diagram
- ✓ A GitHub repo preview or demo link

Visual I'll include:

Step 5: Share and Track

After posting, note the date and any comments, likes, or messages you received.

Post Date: _____

Platform: _____

Any reactions or messages?

Outcome

By completing this activity sheet, you'll:

- Learn how to share your progress professionally
- Increase your online visibility and credibility
- Invite support, feedback, and potential opportunities
