Chapter 4 Activity Sheet: Daily Cloud Lab Routine

📘 Use this sheet to follow Chapter 4 Quick Win. This activity is designed to help you build consistency and real-world cloud experience through structured daily practice.

📅 My Cloud Practice Tracker (Week Overview)

Fill out your weekly routine using the table below.

Day	Focus Area	AWS Service	Goal/Task
Monday			
Tuesday			
Wednesday			
Thursday			
Friday			

📝 Daily Log Template

Use this section to log your progress each day:

Date	AWS Service		Task	
What I Did				
What Worked /Failed				
What I'd do differently in production				
Date	AWS Service		Task	
What I Did				
What Worked /Failed				
What I'd do differently in production				
Date	AWS Service		Task	
What I Did				
What Worked /Failed				
What I'd do differently in production				
Date	AWS Service		Task	
What I Did				
What Worked /Failed				
What I'd do differently in production				
Date	AWS Service		Task	
What I Did				
What Worked /Failed				
What I'd do differently in production				

🧠 Weekly Summary Reflection

At the end of the week, reflect on what you accomplished.

Key skills I practiced:

_____

Services I feel more confident using:

_____

One thing I want to improve next week:

_____

✨ Bonus Task

Set up a CloudWatch Alarm + SNS topic to notify you of an EC2 threshold breach (e.g., CPU > 70%).

Bonus Notes:
Alarm Name: _____
SNS Email Received? Yes / No
Screenshot saved to /screenshots folder

📢 LinkedIn Share Prompt

Just finished my first full week of AWS labs!
✅ Simulated EC2, IAM, CloudWatch, and VPC tasks
✅ Logged every task as if I were in a junior cloud role
✅ Practicing real skills before the real paycheck
